0. Summary

This report provides a summary of the data analysis. The data was collected from various sources and processed using advanced AI algorithms. The results show a significant increase in performance over the last quarter. For more details, please refer to section 1. **PDF...**

1. Data Analysis

The data analysis shows that the PDF and CSV files were processed successfully. The results are as follows:

2.

- 1. PDF: MEP
- 2. CSV: ID 4 5

1. PDF

-
-
-

2.

-

- 1.
- 2.
- 3.

	BIM/CAE: 3BIM	

3/5

□□□□

- CSV

- □ □ □ □ □

[illegible]

```
Step 3: [project_csv_rows] CSVlanguage-locales.csv
SQL
```sql
SELECT COUNT(DISTINCT f.id) AS total_csv_files, COUNT(r.id) AS total_csv_rows FROM project_csv_files f LEFT
JOIN project_csv_rows r ON f.id = r.csv_file_id WHERE r.csv_file_id IN (2,3,4,5,6) AND f.project_id = 4
```

```json
[{"total_csv_files":5,"total_csv_rows":53}]
```

Step 99:

```
